

	START PULSE	STOP PULSE
S1 CLOSE		
S1 OPEN		

**GENERATOR SET INTERFACE FUNCTION:**

When S1 closes, a start pulse, adjustable from 1-3 seconds makes a contact closure at the start pulse terminals.

When S1 opens, a stop pulse, adjustable from 1-3 seconds makes a contact closure at the stop pulse terminals.

Notes: DC input voltage range is 12-100 volts.

Output contacts are isolated from DC and control inputs.

Contact ratings: 7Amps at 270VAC or 30VDC
